ORDER NO. 94-028

REVISING ORDER NO. 92-084, SITE CLEANUP REQUIREMENTS FOR:

DELUXE CHECK PRINTERS
1551 DELL AVENUE
CITY OF CAMPBELL
SANTA CLARA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region (hereinafter called the Board), finds that:

1. Deluxe Check Printers (Deluxe) owns and occupies the property at 1551 Dell Avenue in Campbell, Santa Clara County, and is named a Discharger because the property has been identified as having soil and groundwater pollution which resulted wholly or in part from the discharge of volatile organic compounds (VOCs) from on-site underground storage tanks and/or appurtenances.
2. The Board adopted Site Cleanup Requirements for this site on July 15, 1992 and Waste Discharge Requirements (NPDES) on April 21, 1993.
3. The Discharger has been diligent in complying with requirements of both existing Orders.
4. The Discharger has encountered delays in procuring equipment to complete construction of the extraction and treatment systems and in obtaining all necessary permits to operate the remediation system. These delays have resulted or will result in delays in completing other Tasks as required by Board Orders. The Discharger has provided a proposed revised schedule for completing required Tasks and requested a maximum of six months delay in some Tasks. The Board, considering the specific circumstances involved, finds this request to be reasonable.
5. This action is an Order to enforce the laws and regulations administered by the Board. This action is categorically exempt from the provisions of the CEQA pursuant to Section 15321 of the Resources Agency Guidelines.
6. The Board has notified the Discharger and interested agencies and persons of its intent under the California Water Code to revise Site Cleanup Requirements and has provided them with the opportunity for a public hearing and an opportunity to submit their written views and recommendations.

7. The Board, in public meeting, heard and considered all comments pertaining to the discharge.

IT IS HEREBY ORDERED, pursuant to provisions of the California Water Code and regulations adopted thereunder, that the Discharger shall comply with the following:
